PROBLEM STATEMENT

A comprehensive mobile application, GatherInn Hostel, that serves as an essential platform for hostel students to seamlessly connect, buy/sell items, share reviews, explore nearby places of interest, stay updated with an event calendar, access contact information, and engage with a vibrant blogging community. The app aims to enhance the hostel experience, fostering a sense of community, convenience, and information exchange for travelers and backpackers.

CONCLUSION

The GatherInn Hostel App leverages Android Studio and Firebase to provide a user-friendly and interactive platform for hostellers. It enhances hostel living through features like user authentication, real-time data management, marketplace, reviews, and blogs, fostering a sense of community and convenience.

THANK YOU
